1 Project description

Title: European Social Survey MTMM

Datafile: au09a_1.0p_EN.sav

Funding sources: MESS - CentERdata

Investigator: Prof. dr. W.E. Saris

Project description: The questionnaire consists of the core questions from the European Social Survey in which a Multi Trait Multi Method (MTMM)-experiment was incorporated. Each MTMM experiment consisted of three questions (traits) and one repetition of the same questions in a different form at the end of the questionnaire. Since the order in which the different forms of the questions are asked may make a difference for the quality estimates of the questions, a three group Split Ballot MTMM design was used for each topic.

Sample: One person per household aged 16 years or older, randomly selected.

Selected number of household members: 4877 (100%)

Non-response: 1660 (34%)

Actual response: complete: 3194 (65.5%)

incomplete: 23 (0.5%)

Date of data collection: December 2008

Titel: European Social Survey MTMM

Databestand: au09a_1.0p_EN.sav

Financiering: MESS - CentERdata

Onderzoeker: Prof. dr. W.E. Saris

Projectbeschrijving: De vragenlijst bestaat uit de kernvragen uit het European Social Survey. Hierin is bovendien een Multi Trait Multi Method (MTMM)-experiment opgenomen. Elk MTMM experiment bestond uit drie vragen (traits) en één herhaling van dezelfde vraag in een afwijkende vorm aan het einde van de vragenlijst. Aangezien de volgorde waarin de verschillende vraagvormen worden gepresenteerd invloed kan hebben op de kwaliteitsschattingen van de vragen, werd voor ieder onderwerp gebruik gemaakt van een 'three group Split Ballot MTMM design'.

Responsoverzicht: Eén persoon per huishouden van 16 jaar of ouder, random geselecteerd.

Selectie aantal leden huishouden: 4877 (100%)

Nonrespons: 1660 (34%)

Respons: compleet: 3194 (65.5%)

incompleet: 23 (0.5%)

Datum van data verzameling: december 2008

2 Introduction

In December 2008 six Multitrait Multimethod (MTMM) experiments were done in the LISS panel. Each MTMM experiment was constructed as a 'three Group Split Ballot MTMM design'. Two experiments were conducted per randomly selected group. In total this yields 9 experimental groups for six experiments (see table below). The questions are part of the European Social Survey.

The questionnaire was presented to 4877 panel members, of which 3194 fully completed the questionnaire (response percentage 65.5%).

3 Codebook

This codebook contains the questionnaire as fielded in the LISS panel.

- The variable names are indicated in **bold** and correspond to the names in the dataset.
- The routing of the questionnaire is indicated in *italics* for each variable concerned.
- *open*: answer box; no limit to the length of the answer
- *string*: answer box that permits entering a maximum number of characters (default is 255)
- For numerical variables, the range from which the respondent could choose an answer is presented in *italics* in the codebook if this range was not visible to the respondent. If there were no limits to the range within which an answer could be given, this is indicated in the codebook as *'integer'*.

{intro}

This questionnaire is about your opinion on various social and personal subjects.

The questionnaire is part of a large international survey, and it needs to be completed in exactly the same way everywhere to enable a comparison between all the countries. You may therefore encounter questions that you have answered before in another questionnaire, but please be sure to answer these again, as well as you can.

** The questionnaire is designed in such a way that, if respondents initially fail to answer (part of) a question, they are again presented the same question, preceded by the following notice:*

The system is unable to select the next question if you do not answer this question. Please answer the question below, so that we can lead you to the next question. Thank you.

In addition, this second attempt offers an 'I don't know' option. For vertically presented response categories, this option is added at the bottom. For horizontally presented scales, this option is placed to the right of the other options.
