PrADePS GESIS Panel.dbd Codebook

Related to GESIS Panel.dbd Wave kz (July to August 2023)

Tobias Gummer, Saskia Bartholomäus, and Bernd Weiss

Version 1.0.0 (January 2026)

Description

The data set "PrADePS GESIS Panel.dbd" was collected as part of the GESIS Panel.dbd Wave kz, including a measurement instrument for the project "Prediction-based Adaptive Design for Panel Surveys". One aim of the project was to assess respondents' interest in various survey topics. The data set contains data of a survey conducted in a non-probability sample which was recruited via ad-based sampling on Meta Inc. platforms (Pötzschke et al., 2023). The initial sample was recruited between May and July 2023. Respondents' who consented to becoming part of the panel were invited to participate in wave kz, which was conducted between July and August 2023. The survey was administered in web mode. For their participation, respondents received a small monetary incentive by the panel provider. On average, participants took 5 min and 11 seconds to complete the questionnaire. The questionnaire was fielded in German. In this codebook, English translations of the topic preference items are provided. The project was funded by the Deutsche Forschungsgemeinschaft (German Research Foundation) [495763090].

Pötzschke, S., Weiß, B., Daikeler, J., Silber, H., & Beuthner, C. (2023). *A guideline on how to recruit respondents for online surveys using Facebook and Instagram: Using hard-to-reach health workers as an example (GESIS Survey Guidelines)*. https://doi.org/10.15465/gesis-sg_en_045
